

01. ABOUT ME

Who I am.

Hey! I'm **Divyansh Jain**, a First Year B.Tech Computer Engineering student with specialization in AI ML at **MIT-AOE, Pune**. I'm passionate about building things that live on the internet and solving real-world problems with code.

I started coding in school with Python and C, and now I'm diving deep into **Data Visualization**, **Coding languages**, and the fundamentals of computer science. I love hackathons, late-night debugging sessions, and learning by building.

When I'm not coding, you'll find me reading tech blogs, playing sports, or sweating in gym .

LANGUAGES

8.62

SGPA SEM 1

What I work with.

Languages

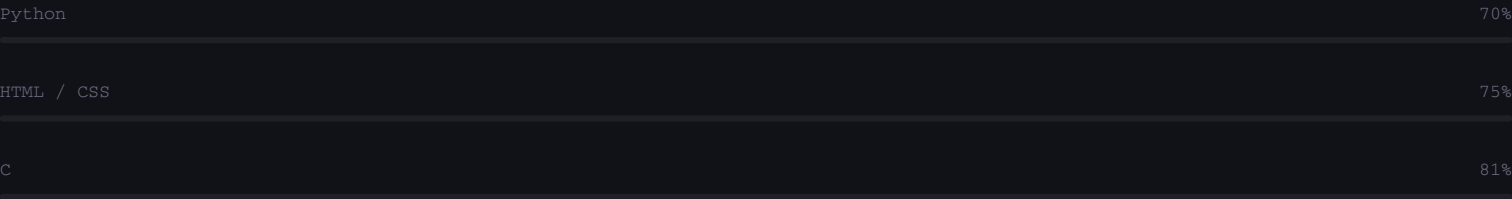

- Python
- C
- JavaScript
- HTML5
- CSS3
- SQL
- PowerBi

Tools & Platforms

- Github
- VSCode
- Anaconda Navigator

CS Fundamentals

- Data Visualizing(PowerBi)
- DBMS

Things I've built.

01

SmartHelmet Lite

A helmet with sensors keeping the workers safe from the injuries and also reducing the mental stress.

Used sensors with language as Arduino

GitHub Live Demo

02

PyMaze Solver

Visualizer for BFS and DFS maze-solving algorithms, built in Python with Tkinter. Generates random mazes and animates

the solution path.

04. EDUCATION

My journey so far.

2025 — PRESENT

B.Tech — Computer Engineering

MIT Academy of Engineering, Pune

First year student pursuing CS(AI ML) subjects including Programming in C, Engineering Mathematics, Physics, and Digital Electronics.

SGPA: 8.62 / 10

2023 — 2024

HSC — Science (PCM + CS)

ST.Paul Jr College, Pune

Completed Higher Secondary with Electronics as additional subject. Scored 81% in Maharashtra HSC Board.

81% — HSC Board

2023

SSC — CBSE

Bhavans Nagpur

Completed secondary schooling with distinction. Science and Mathematics topper.

96% — CBSE Board

05. CONTACT

Let's connect.

I'm always open to internship opportunities, collaborations, hackathon teammates, or just a good tech conversation.
